ABOUT ME

Computer Science graduate with two years of hands-on experience in IT support, network troubleshooting across hospital and university settings. I also build web applications with React, Node.js and databases and have passion for technology and innovation. Looking for an opportunity where I can develop both my technical and communication skills.

EDUCATION

BSc. Computer Science

Ghana Communication Technology University
2021 - 2024

EXPERIENCE

University of Health
and Allied Sciences
(UHAS)
10/2023 - 12/2023

Internship

- Provided technical support to staff and students
- Installed and maintained network systems and devices
- Troubleshot computers, printers and other peripherals
- Monitored network performance for availability and reliability

Ho Teaching Hospital
2024 - 2025

National Service

- Delivered IT support for hospital staff and departments
- Managed user access within the LHIMS platform
- Maintained network connectivity and system reliability
- Supported staff with training and technical assistance

Ho Technical University
August - Present

Internship

- Assist lectures and Teaching Assistants in daily activities

PROJECTS

Runway
runway-
1e7s.onrender.com

Personal budget tracker • React, Redux, Node.js, Express, MongoDB

- Set a monthly budget, log expenses by category, and see what is left.
- Sign-up and login with JWT tokens and bcrypt-hashed passwords, every query scoped to the signed-in user.

FormFit
formfit-beige.vercel.app

Home-workout form guide • React, Vite, Tailwind CSS, Supabase

- Exercises with form cues and common mistakes, by muscle group and difficulty.
- Simple admin page so the exercise library is editable without redeploying.

SKILLS

Development

- HTML, CSS, JavaScript, React
- Node.js, Express, REST APIs
- MongoDB, PostgreSQL (Supabase)
- Git, Python

IT and Systems

- IT support and troubleshooting
- Network installation and monitoring
- LHIMS
- Microsoft Office Suite
